JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Botanisches Centralblatt

The Botanisches Centralblatt which has become the property of the Association Internationale de Botanistes will, beginning with the first of January, 1902, be sent gratis to all members of the Association. The annual fee for members is twenty-five shillings. The number of representatives on the general committee of the Association to which any country is entitled depends on the number of members living in that country. The names of previous subscribers to the Centralblatt are of course known to the editors in cases where the subscriptions were taken in the subscribers' own names but, where copies were ordered through booksellers or other agents, the subscribers' names or even the countries in which they reside are not known. In order, therefore, that the editors may be enabled to know the exact number of members residing in this country and thus ascertain the number of representatives on the committee to which we are proportionally entitled, all desiring to join the Association who have not already registered as members should send their names at once to the Secretary, Dr. J. P. Lotsy, care of E. J. Brill, Leyden, Holland. Any person may join the Association and institutions, such as colleges, libraries, etc., are eligible to membership and can by joining the Association receive the Centralblatt on the same terms as private individuals. The subscription price of the Centralblatt to non-members of the Association is twenty-eight shillings.

A corrected Name

Mentzelia speciosa

Mentzelia aurea Osterhout, Bull. Torr. Club, 28 : 544.

Not *Mentzelia aurea* Nutt. Gen. 1 : 300 which is now a synonym of *Mentzelia oligosperma* Nutt.

GEORGE E. OSTERHOUT.
